

Air Combat Challenge Mission Briefing

Mission Overview:

All the thrills of air combat action with a solid focus on everyone having fun together as a group. All pilots will take a crash course in dog fighting with a CF-18 Hornet jet fighter. This includes pre mission practice and briefing along with a live session of dog fighting.

Once all pilots on the mission have had a go at flying the simulators, a round robin style competition is held. Pilots are assigned an initial order to fly in. Pilots 1 to 4 climb aboard and start the competition. Once a pilot has been "downed" they hand their plane to the next pilot in line. While this event still has its roots in excitement and solid competition, it's the pilots that have the most fun that win.

Execution Details:

- Initial welcome and event mission briefing and creation of flight squads.
- Hornet skills development session on PC simulators and pre-mission briefing for each flight squad.
- Initial familiarization flight in CF-18 simulator including head-to-head combat for each flight squad.

-Once all pilots have completed their familiarization flight, the Air Combat round robin phase begins. Pilots are briefed on the competition and the initial pilot order is set. The first four pilots enter the sim's and begin battle! Once a pilot has been hit, they exit their sim and another pilot takes over the sim and gets into the battle.

-Competition continues with everyone taking turns in the sim's until its time to issue awards for participation

Key Features:

- Air Combat Mission for each person-
 - Groups up to 12 do 15min. PC, 15min. brief & 30min. flight.
